All Clients Served ....................................................................................................... 17
This report covers services provided to CAP clients during the 2013 - 2014 fiscal year. During this period, a total of 27 clients were served by nine advocates and the CAP Director, including 23 new clients and four returning clients. All of the new clients had previously stayed in Turning Point’s shelter. In three successive cohorts, the new clients were partnered with an advocate and together they worked for up to 12 weeks on achieving the clients’ self-defined goals. Specifically, from September, 2013 – December, 2013, four advocates were trained and worked with eight women; the same four advocates worked with six new women from January, 2014 – April, 2014; and a new group of five advocates were trained and worked with nine women from May, 2014 – August, 2014. Client information was collected at the time of program intake, during the course of service delivery, and at program exit. Details about the new and returning clients and the services they received are provided herein.

NEW CAP CLIENTS

DEMOGRAPHICS

As shown below, on average, CAP clients were 33 years old. Sixteen (70%) women identified as African American, three (13%) were White, and three (13%) were Latina. Nineteen (83%) women had dependent children. On average, clients had three children.
At the time of CAP intake, most (79%) of the women had at least a high school education. Three (14%) women were working full-time and three (14%) had a part-time job. The remaining 16 (73%) women were unemployed. All but one woman (96%) reported an annual household income below the federal poverty level, and the majority (57%) resided in Macomb County.

### Education

- Some High School: 22%
- High School / GED: 35%
- Some College: 44%
- College Grad: 11%

79% Completed High School

### Employment

- Unemployed: 73%
- Full-time: 14%
- Part-time: 14%

28% Employed

### Income

- Below federal poverty level: 96%
- Above poverty: 4%

Average monthly income: $618.29

### County of Residence

- Oakland: 39%
- Macomb: 30%
- St. Clair: 28%
- Wayne: 4%
- Lapeer: 4%

4%
SERVICES RECEIVED

Clients and advocates worked on a wide range of needs during their time together. Emotional support was most common (100%), followed by personal needs (96%), transportation (96%), and housing (91%). Over three quarters (78%) of the women worked on financial issues and over three quarters (78%) received some form of tangible support during their time with CAP. This included gift cards, cash, personal items, Second Hand Rose vouchers, child care, and transportation.
**CLIENT RETENTION**

This fiscal year, 22 of the 23 (96%) clients who started CAP worked with an advocate for a sustained period of time. One woman started the program, but ended after limited interaction with her advocate or the CAP Director. The case is described below:

This client was a 21 year old, African American woman from Detroit with one child (age one), and a part-time job. Her first contact with Turning Point was a hotline call on 1/5/14, and she entered shelter the same day. She completed her CAP intake with the program director on 1/8/14, and then left the shelter without notice to stay with family on 1/13/14, 8 days after entering shelter. At CAP intake, she stated that she wanted to work with her advocate on housing, employment, financial issues, and child care. Her first contact with her advocate was on 1/15/14, one week after her CAP intake and 2 days after leaving shelter. After that initial contact, her advocate provided crisis intervention and emotional support by phone for six weeks, and then the advocate was no longer able to reach the client. The program director also made several unsuccessful attempts to contact her.

Client retention improved from the last fiscal year, when four clients (24%) withdrew from CAP. At the time, three potential contributing factors were identified: 1) duration of time between recruitment and advocate contact; 2) reliance on phone contact rather than in-person contact early in the advocate-client relationship; and 3) less extensive management of the program during the CAP Director’s maternity leave.

The table below shows the average number of days between intake and the advocates’ initial and first in-person contact with their clients in the 2012 – 2013 fiscal year compared to the 2013 – 2014 fiscal year. The number of days between intake and the first contact, whether that was by phone or in person, decreased by 2.4 days. The average number of days between intake and the advocates’ first in-person meeting with their clients decreased from 24.4 to 15 days.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Average Days from Intake to First Contact</td>
<td>14.59</td>
<td>12.13</td>
</tr>
<tr>
<td>Average Days from Intake to First In-Person Meeting</td>
<td>24.4</td>
<td>15.05</td>
</tr>
</tbody>
</table>

The decrease in the number of days between intake and their first in-person meeting was statistically significant. It is possible that meeting their advocate in-person sooner contributed to more women staying engaged in the program this year compared to last.
**Fidelity to Evidence-Based Model**

To assess fidelity to the evidence-based model, four components are assessed: dosage, client satisfaction, empowering practice, and client outcomes. Dosage is assessed with data collected with advocates’ weekly activity logs, while the other three components are collected through an exit interview administered by the CAP Director. Of the 22 clients who completed the intervention, 21 participated in an exit interview. Within each area, responses are averaged to assess whether they fall within the “acceptable” or “unacceptable” range. Responses that fall in the acceptable range indicate that the intervention was delivered as intended. Response scores that fall within the unacceptable range indicate the need to modify advocate recruitment, training, and/or supervision.

**Dosage**

The *intensity* and *length* of the intervention are critical components of the CAP intervention. The evidence-based model dictates that advocates work with or on behalf of their clients for 4 – 6 hours per week for 10 weeks, with a minimum of 8 weeks. In response to their unique contextual challenges, Turning Point increased the length of the intervention to 12 weeks, with a minimum of 10 weeks.

**Intervention Dosage**

<table>
<thead>
<tr>
<th>Cohort</th>
<th>Average Hours/Wk</th>
<th>Avg Hrs/Wk, Range</th>
<th>Average Weeks</th>
<th>Weeks, Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>September – December, 2013</td>
<td>4.4</td>
<td>1.5 – 5.5</td>
<td>12</td>
<td>10 - 14</td>
</tr>
<tr>
<td>January, 2012 – April, 2014</td>
<td>4.9</td>
<td>2.1 – 8.3</td>
<td>11</td>
<td>10 - 12</td>
</tr>
<tr>
<td>May, 2012 – August, 2014</td>
<td>4.0</td>
<td>2.1 – 5.5</td>
<td>12</td>
<td>11 - 14</td>
</tr>
</tbody>
</table>

As shown in the table above, the first, second, and third cohorts worked an average of 4.4, 4.9, and 3.9 hours per week with their clients, respectively. The average *intensity* of the intervention was in the **acceptable** range for all three cohorts. However, across the three cohorts there were 8 women (36%) whose advocates worked with them or on their behalf less than the expected 4 – 6 hours per week, thus falling in the **unacceptable** range.

The *length* of the intervention fell in the **acceptable** range of 10 – 12 weeks for every client in all three cohorts.

Regardless of the number of hours and weeks advocates worked with their clients, all (100%) of the clients that completed the exit survey reported that they were “satisfied” with the amount of time their advocate had put toward working with them. CAP is a survivor-centered intervention, thus the time and energy devoted should correspond with the clients’ individualized needs. Given that women felt the time spent was adequate, it may be reasonable to conclude that the intervention dosage was sufficient. However, best practice evidence suggests that the intensity and length of the intervention are critical to the effectiveness of program. This is an issue that needs further attention.
**Client Satisfaction**

Three questions were asked to assess clients’ overall satisfaction with CAP. The response frequencies and average scores for the questions are presented below. As shown, all of the scores fell within the acceptable range.

1. Overall, how satisfied have you been with the amount of time your advocate put in toward working on things with you?

   - Not enough time: 0%
   - Satisfied: 100%
   - Too much time: 0%

   **Average score = 1.0. Acceptable.**

2. Overall, how satisfied are you with the amount of effort your advocate put in toward working on these things with you?

   - Very satisfied: 48%
   - Somewhat satisfied: 52%
   - Somewhat or very dissatisfied: 0%

   **Average score = 2.48. Acceptable.**

3. How satisfied have you been with the program overall?

   - Very satisfied: 48%
   - Somewhat satisfied: 52%
   - Somewhat or very dissatisfied: 0%

   **Average score = 2.48. Acceptable.**

4. What one thing would you recommend we do to improve the program?

   - Change nothing: 67%
   - More time with my advocate: 33%
EMPOWERING PRACTICE

Six elements of empowering practice were assessed: 1) advocate availability; 2) client-advocate bond; 3) advocate encouragement of client autonomy; 4) advocate supportiveness and respectfulness; 5) advocate competence; and 6) extent to which the intervention was holistic. Clients were asked to report the extent to which their advocate engaged in empowering practices using a 4-point scale: 0 = Not at all; 1 = A little; 2 = Somewhat; 3 = Very much. The frequencies and average scores are presented below. The average scores across all six elements of empowering practice fell within the acceptable range.

**Advocate Availability**

1. To what extent do you feel like your advocate spent enough time with you?

   - Very much: 57%
   - Somewhat: 38%
   - A little: 5%
   - Not at all: 0%

   Average score = 2.52. Acceptable.

2. To what extent do you feel like your advocate was available when you needed her?

   - Very much: 48%
   - Somewhat: 52%
   - A little or Not at all: 0%

   Average score = 2.52. Acceptable.

3. The advocate I worked with provided me with regular, weekly support.

   - Very much: 48%
   - Somewhat: 48%
   - A little: 5%
   - Not at all: 0%

   Average score = 2.38. Acceptable.
Advocate Encouragement of Client Autonomy

1. I decided what issues I wanted to work on with my advocate.

   - Very much: 57%
   - Somewhat: 43%
   - A little or Not at all: 0%

   **Average score = 2.57. Acceptable.**

2. I was in charge of setting goals regarding what I wanted to work on with my advocate.

   - Very much: 57%
   - Somewhat: 43%
   - A little or Not at all: 0%

   **Average score = 2.57. Acceptable.**

3. The advocate cared about my unique needs.

   - Very much: 62%
   - Somewhat: 38%
   - A little or Not at all: 0%

   **Average score = 2.62. Acceptable.**

4. The advocate I worked with helped me meet the goals I thought were important.

   - Very much: 52%
   - Somewhat: 48%
   - A little: 0%
   - Not at all: 0%

   **Average score = 2.52. Acceptable.**
Advocate Supportiveness and Respectfulness

1. The advocate noticed my positive qualities.

<table>

Average score = 2.57. Acceptable.
CLIENT OUTCOMES

Eight outcome were assessed: 1) knowledge of domestic violence; 2) knowledge about community resources; 3) self-efficacy; 4) safety, 5) goal attainment, 6) quality of life, 7) social support; and 8) psychological well-being. Clients rated their gains on each outcome on a 4-point scale: 0 = Not at all; 1 = A little; 2 = Somewhat; 3 = Very much. The frequencies and average scores are presented in the graphs below. The average scores across all eight outcomes fell within the acceptable range.

### Increased Knowledge about Domestic Violence (DV)

1. To what extent do you understand more about the causes of DV?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>38%</td>
<td>62%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.38. Acceptable.

2. To what extent do you understand more about how DV affects you?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>33%</td>
<td>67%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.86. Acceptable.

3. To what extent do you understand more about how DV affects your children? (n=18)

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>39%</td>
<td>61%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.86. Acceptable.

### Increased Knowledge about Community Resources

1. To what extent do you have more information that will help you?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>43%</td>
<td>57%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.43. Acceptable.

2. To what extent do you know more about community resources you might need?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>38%</td>
<td>62%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.38. Acceptable.

3. To what extent do you have a greater understanding that if one organization cannot help you there will be another that can?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>43%</td>
<td>57%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.43. Acceptable.
### Self-Efficacy

1. To what extent are better able to get what you need for yourself?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>43%</td>
<td>57%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.43. Acceptable.

2. To what extent are you better able to get what you need for your children? (n=18)

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>50%</td>
<td>50%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.50. Acceptable.

3. To what extent are you more able to achieve the goals you set for yourself?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>43%</td>
<td>57%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.43. Acceptable.

### Safety

1. To what extent are you safer?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>33%</td>
<td>67%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.33. Acceptable.

2. To what extent do you have more ways to keep yourself safer?

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>33%</td>
<td>67%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.33. Acceptable.

3. To what extent do you have more ways to keep your children safer? (n=18)

<table>
<thead>
<tr>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>39%</td>
<td>61%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.39. Acceptable.
Goal Attainment

1. To what extent do you have a plan to help you meet your financial needs?

- Very much: 33%
- Somewhat: 67%
- A little or Not at all: 0%

Average score = 2.33. Acceptable.

2. To what extent do you have a plan to help you meet your housing needs?

- Very much: 33%
- Somewhat: 67%
- A little or Not at all: 0%

Average score = 2.33. Acceptable.

3. How effective have your efforts been in accomplishing your goals?

Effectiveness Obtaining Resources

- Very effective: 3
- Somewhat effective: 2
- A little effective: 1
- Not effective at all: 0

Before CAP: 1.4
After CAP: 2.0

In the 12 weeks before CAP compared to the 12 weeks working with a CAP advocate, on average, individual women showed significant improvement in their effectiveness obtaining needed resources such as housing, employment, transportation, and medical services.
Quality of Life

1. To what extent are you more satisfied with your life overall?

<table>
<thead>
<tr>
<th></th>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage</td>
<td>43%</td>
<td>52%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.38. Acceptable.

Social Support

1. To what extent are you more satisfied with the support you receive from the people in your life?

<table>
<thead>
<tr>
<th></th>
<th>Very much</th>
<th>Somewhat</th>
<th>A little or Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage</td>
<td>43%</td>
<td>57%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.43. Acceptable.

Psychological well-being

1. To what extent are you more satisfied with your emotional or psychological well-being?

<table>
<thead>
<tr>
<th></th>
<th>Very much</th>
<th>Somewhat</th>
<th>A little</th>
<th>Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage</td>
<td>38%</td>
<td>57%</td>
<td>5%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.33. Acceptable.

2. To what extent are you more hopeful about the future?

<table>
<thead>
<tr>
<th></th>
<th>Very much</th>
<th>Somewhat</th>
<th>A little</th>
<th>Not at all</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percentage</td>
<td>38%</td>
<td>57%</td>
<td>5%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Average score = 2.33. Acceptable.

Benefits of CAP in Clients' own Words

“*To have an agency care about you, another person to hear your story and believe what you are telling them. To have additional support, making a horrible situation better knowing my advocate was here for me.*”

“I felt very connected to her. She was compassionate and easy to talk to.”

“*Being able to find a place to live and having the resources for a company to move me in.*”

“My daughter developed a great relationship with my advocate, she felt safe.”

“We were able to move, furnished our home, kids signed up for school, she did a lot for us!”

“I learned a lot from Turning Point over all. My children are doing better. They are happier, healthier, and safer.”
RETURNING CAP CLIENTS

In addition to the new clients served, four previous CAP clients returned for services during this fiscal year. Two returned for assistance within three months of ending work with their advocates, one returned eight months after her departure from CAP, and one contacted the CAP Director almost one year after her departure from CAP.

Of the returning clients, two were African American, one was white, and one was Hispanic. They ranged in age from 31 – 38. Three of the women were from Macomb County and one was from Wayne County.

The CAP Director provided a total of six hours of service to returning clients. The table below provides a breakdown of the areas of needs worked on:

<table>
<thead>
<tr>
<th>Area of Need</th>
<th>Number Served</th>
<th>Hours Spent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Personal items</td>
<td>3</td>
<td>2.7</td>
</tr>
<tr>
<td>Second Hand Rose Voucher</td>
<td>1</td>
<td>0.4</td>
</tr>
<tr>
<td>Gift card</td>
<td>1</td>
<td>0.3</td>
</tr>
<tr>
<td>Emotional support</td>
<td>1</td>
<td>0.7</td>
</tr>
<tr>
<td>Crisis Intervention</td>
<td>1</td>
<td>0.5</td>
</tr>
<tr>
<td>Housing</td>
<td>1</td>
<td>1.5</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td><strong>6</strong></td>
<td><strong>6.1</strong></td>
</tr>
</tbody>
</table>

As the above table illustrates, clients most commonly sought help for tangible assistance, including personal items, Second Hand Rose vouchers, and gift cards. The other issues for which past clients contacted the CAP Director included crisis intervention, emotional support, and housing.
ALL CLIENTS SERVED

This final section provides a summary of demographic statistics for all of the clients served by the Community Advocacy Program during the fiscal year. In total, the CAP Director and advocates provided services to 27 clients: 23 new and 4 returning clients. Below is a breakdown of their demographic statistics:

**Children**
- With children: 85%
- No children: 15%
- Total number of children: 68
- Range: 0 – 9 children
- Average: 3 children

**Race**
- African American: 67%
- White: 15%
- Other: 11%
- Latina: 7%

**Age**
- 20 - 29: 33%
- 30-39: 48%
- 40-49: 11%
- 50 - 59: 7%
- Average: 33 years old

**Disability**
- None: 48%
- Physical: 26%
- Emotional: 22%
- Hearing: 4%

**Education**
- Some high school: 19%
- High school grad / GED: 30%
- Some college: 52%

**Employment**
